Int. Code: +27 21

INVITATION TO REGISTER AS A SUPPLIER **ON THE SKA SA SUPPLIER DATABASE**

Dear Supplier

The South African Square Kilometre Array (SKA) project is a project of the Department of Science and Technology, executed through the National Research Foundation and the South African SKA Project Office. Information about the project is available from www.ska.ac.za. Information about the international SKA project is available from www.skatelescope.org.

In order to comply with the policies and procedures set out in the Square Kilometer Array's Supply Chain Management Policy and to afford all qualifying prospective suppliers and service providers equal and simultaneous access to bids including price quotations, the National Research Foundation has instituted supplier databases for use by its employees.

The National Research Foundation, values its relationships with suppliers, envisages that the supplier databases allows efficient supplier administration especially in complying with policies, procedures and applicable legislation (e.g. PFMA, PPPFA, BBBEE Act, etc.). When issuing requests for quotation, suppliers registered on the supplier databases have first preference against non-registered suppliers.

Please complete the official registration and supply categorisation forms available from www.ska.ac.za in full and sign as required. Attach all supporting documents as requested.

The Square Kilometre Array reserves the right to reject any incomplete application form accompanied by insufficient information.

All enquiries shall be addressed to **Melissa Davids** at melissa@ska.ac.za, +27 21 506 7300

HAND DELIVER completed forms to: SCM Unit SKA SA 3rd Floors, The Park Park Road Pinelands 7405
